PRIMARY PATENT EXAMINER

Reason for Allowance

Claims 26-30, 41 and 43 are allowed for the following reasons:

The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat. No. Cielo (US 4400056).

Claim 41 is allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious optical sensors formed therein, the pulse having a duration less than a time required to travel a smallest distance between the two most closely spaced sensors; and wherein the Fabry-Perot cavities are designed such that a cavity length varies only over a quasi-linear range of a half fringe under conditions to which the Fabry-Perot cavities are exposed, respectively, in combination with the rest of the limitations of the base claim. Claims 26-30 and 43 are allowed by virtue of dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
